CHICAGO, Oct. 14.-Mr. Barry, the Knight

CHICAGO, Ort. 14.—Mr. Barry, the Knight of Labor delegate, who was sent here from Richmorel to try and settle the Union stock yards troubles, spent the foreneon Wednesday in Packingtown interviewing the packers. To a reporter be said:

The men have their minds set on the eighthour rule and will agree to nothing else. We made a proposition to the packers that they adopt the eighthour rule and our men will agree to work all the overtime necessary. This will be practically a recognition of the sighthour question and will be accepted by the men.

The packers submitted a proposition that the men work and be paid by the bour. But this will not be accepted, as the men are afraid the system will work to their disadvantage, and if the packers desire to do so they can give them only an hour or two bours' work a day. I have proposed a meeting with the packers at the board of trade, and should they accept the proposition the matter will be settled name dialely. Should they not most me I will take other means to effect a settlement, for this thing must be fixed up quickly, as it is all nonsense for Armour to suppose that his beef-butchers will work under the circumstances by which they are now surrounded. Is I find that things are as I sometimes suspect they are, and that the packers are playing a waiting game, I will take more energetic measures at once, and on my return to Riebmond shall tell the knights there that Armour's beef is not as good as it usek to be, and we will see how the opinious of 2,000,000 men throughout the country will effect his trade.

MALARIA.

"If people could only know what a splendid medicine Simmons Liver Regulator is there would be many a physician without a patient and many an interminable doc tor bill saved. I consider it infallible in malarial infection. I had for many years been a perfect physical wreck from a combination of complaints, all the outgrowth of malaria in my ystem, and even under the skillful hand of Dr. J. P. Jones, of this city. I had de spaired of ever being a well woman again. Simmons Siver Regulator was recommended to me. I tried it; it helped me, and it is the only thing that ever did me any good. I persevered in its use, and I am now in perfect health. I know the medicine cuted me, and I always keep it as a reliable 'standby' in my family." Respectfully, Mrs. Many Ray,
